

**TOOLMASTER ATP-50**

**Air Punch & Flange**

**1.2mm Steel Capacity**

## TOOLMASTER Air Punch & Flange ATP-50

Rear View

### Description

The Toolmaster Air punch & flange tool is a 2 in 1 air tool designed for flanging up to 1.2mm sheet metal for overlapping panels and punching a 5mm hole for welding through. Light weight and easy to operate making it the ideal tool for every automotive body repair shop.

### Features

- 2 in 1 pneumatic tool for punching holes and flanging edges in sheet metal
- 1.2mm steel & aluminium thickness capacity
- Ø5mm hole punch
- 12mm x 25mm flange capacity (D x W)
- Lightweight aluminium diecast body with rubberised grip handle for comfort
- Easy to operate, every press of the lever delivers a single punch or flange crimp with precision control
- Essential tool for automotive repair shops for creating and installing patch panels, replacement panels or custom sheet metal work
