HAFCO Mechanics Roller Seat DMRS-600B

Tool Tray

Swivel Wheels

Includes Mounting Bracket to suit BRRS 600 Back Rest

Tools Not Included

Seat Down

Description

Our heavy-duty roller seat just got better, the generation 2 version now features a mounting bracket for our optional BRRS-600 back rest. We retained the same sturdy seat with a 150kg weight capacity, sitting on 5 swivel caster wheels to evenly distribute weight and minimise tipping. The thick, padded seat can be adjusted to any height between 450mm-600mm. It also features a tool tray with 5 compartments and slots for spanners and screwdrivers which is elevated for ease of use.

Features

- Compatible with our optional BRRS-600 back rest
- Sturdy frame with a 150kg weight capacity
- Adjustable seat height between 450mm to 600mm
- Thick, padded seat, Ø350mm x 75mm
- 5 x Swivel caster wheels with rubber outer allows 360° rotation
- 2 x Lockable wheels, locking both swivel and roll
- Elevated tool tray with 5 compartments & screwdriver holders
