Description

The APW-22 Bench Type Auto Parts Washer is a compact, reliable cleaning station designed for environments where space is limited but performance can't be compromised. With a sealed recirculating pump system and flexible fluid delivery nozzle, it provides controlled solvent flow for effective removal of grease, oil, and workshop contaminants from components. Perfect for small workshops, home hobby enthusiasts, and any workspace where portability matters, this bench-mounted unit delivers professional cleaning performance in a portable, easy-to-use design.

For even more precise cleaning, the optional APW-BR Brush is available — ideal for reaching tight spots and intricate areas on components, making it easy to remove stubborn dirt and debris from every nook and cranny.

Features

- Compact bench-mount design – fits perfectly in workshops and home garages
- 22L tank / 12L fluid capacity – cleans a wide range of small to medium parts
- Sealed 240V recirculating pump – delivers efficient flow at approx. 113L/hour
- Flexible nozzle – targets cleaning fluid exactly where it's needed
- Removable shelf – keeps parts elevated and protects the pump from debris
- Portable & lightweight – easy to move and position anywhere
- Durable construction – built to withstand repeated workshop use
