

HAFCO-METALMASTER PWC5

Parts Washer Concentrate

5L

HAFCO
METALMASTER

Parts Cleaner

For Engineering and Industrial Use
Non-Toxic, Non-Flammable, Non-Hazardous, Non-Caustic

Hafco Metal Master Parts Cleaner is a water-based, safer alternative to solvent based degreaser. It is formulated for cleaning and degreasing engineering and industrial parts and washable surface.

Usage Rate:
100g (1:10)
Dilute concentration within the suggested range to achieve desired result.

Instructions for Use:
Dilute concentrate with cold or warm water. Apply solution with brush or dip the parts in the immersion wash tank for a few minutes. Brushing may be required for difficult shapes and heavy soiled surfaces. Rinse with portable water and dry completely. Rust protection may be required after washing process for ferrous metals before storage.

Precautions:
Keep out of the reach of children. Avoid contact with eyes. Do not breathe the fumes/sprays. If swallowed, give water, contact a doctor. Refer to material safety data sheet. Contact phone information centre 131 126.
