Description

Convenient, versatile and hardy enough for all your projects

The ETT-1D Steel Gearbox & Engine Tear Down Table is a sturdy work bench, tool cart, and tear-down table all in one package. Perfect for working on your transmissions, gearboxes, small engines and mowers etc. The 1200 x 640mm steel table top can hold a massive 136kg load and also features a 15mm safety edge around the table and a groove that directs oil / fluids into a collection drain pan below. With the addition of a key-lockable drawer to store your tools and 4 castor wheels to easily manoeuvre the table around the garage, this table is versatile enough for virtually many project repairs.

HAFCO Steel Gearbox & Engine Tear Down Table ETT-1D
