### Description

HAFCO 800kg Lever Blocks are heavy duty and ideal for rigging, construction, and mining applications. They feature a Grade 80 alloy load chain and a robust, space-saving steel body.

The ID plates are made from stainless steel, and the unit contains no aluminium components. Each unit is AS 1418.2 compliant and supplied with a test certificate for quality assurance.

### Features

- Rated capacity: 800kg
  - Ergonomically compact design
  - Built for durability in harsh and rugged environments
  - Quick and easy chain adjustment for fast load positioning
  - Suitable for use in underground mining and heavy-duty applications
  - Ball bearing-mounted to bottom hook enable smooth rotation under load
  - Tested at a NATA-accredited facility in accordance with AS 1418.2
  - Fully enclosed design with sealed gear and brake systems for superior protection and durability
  - The short arm lever and precision gear ratio allow minimal effort to lift heavy loads with maximum
  - HAFCO ID plates and rivets are made from stainless steel a non-conductive material for added safety and durability
  - Each HAFCO Lever Block is load-tested to its rated capacity and supplied with a HAFCO test certificate, traceable to its stamped identification side plate
- Standard Lift: 1.5 Metres
  - Test Load: 0.8 Tonne
  - Headroom (H): 320mm
  - Effort on lever to lift full load: 140N

## HAFCO Lever Block HLB800

- No. of chain falls: 1
- Chain Size: 6 x 18mm
- Length of lever handle (L): 290mm

### Specifications

MODEL		HLB800	HLB1600
Capacity (kg)		800kg	1.6 TONNE
Standards Lift (m)		1.5	1.5
Test Load (Tonne)		0.8	1.6
Headroom H (mm)		320	320
Effort on Lever to lift full load (N)		140	240
No. of chain falls		1	1
Dimensions (mm)	A (mm)	148	176
	B (mm)	88	102
	C (mm)	135	155
	D (mm)	32	36
Chain Size		6	8
Net Weight (kg)		7	11
