

AUTO STRONG TSJ-04

Soft Jaw Set

Suit SK-4

AUTO STRONG Soft Jaw Set TSJ-04

Description

The TJS-04 Tongue & Groove Soft Jaws are engineered to provide secure, repeatable clamping while protecting delicate or precision-machined surfaces from damage. Compatible with Auto Strong SK Series lathe chucks, these jaws are ideal for thin-walled components, finished surfaces, and applications that require high concentricity with minimal clamping force.

Features

- Tongue & groove soft jaws to suit Auto Strong Lathe chucks
- Manufactured from S45C steel
- Angle type: 120° Pointed type
