Quick Action Lock To Adjust Linisher Angle

Description

"Abbot & Ashby Industrial Bench Grinder with NEW DESIGN Abbot & Ashby Linisher Attachment now comes complete assembled out of the box."

The New Tough and sturdy AA362W8 200mm Abbot & Ashby Industrial Bench Grinder with a 50 x 915mm Linisher attachment that comes complete assembled out of the box. This new innovative design allows for fast changes to the linisher working angle in any 360° position at 6° increments without any disassembling at all.

Another well thought out clever user-friendly design built into this linisher is the top platen can be used for flat surface grinding and can be moved out of the way for convenient free strapping if required. The self-locking push in & push out arm certainly helps make belt changing very quick and easy for the operator and this system is extremely advantageous when needing to continuously swap over different belt types.

The machine's 4 rubber feet helps to eliminate any vibration and allows the machine to run smoothly no matter if stone grinding or belt linishing. This versatile machine has a 0.6kW, 0.8HP, 240-volt motor with ample power to drive both the grinder wheel and belt linisher simultaneously. The grinder wheel side comes fitted with safety eye shields and tool rests which are fully adjustable to suit every application and operator.

The linishing attachment is perfect for fabricators; uses include basic tube notching, cleaning up welds, removing scale from steel, as well as quickly and cleanly removing burrs from freshly cut steel.

Features

- Design allows for fast changes to the linisher working angle in any 360° position at 6° increments without disassembly
- Top platen can be used for flat surface grinding and can be moved out of the way for convenient free strapping
- Easy belt tracking adjustment knob and lock
- Fast belt changes with patent pending self-locking push in push out arm
- Linishing attachment fully assembled out of the box
- Linisher can be swapped over to left side of grinder if preferred
- Full cast iron body and base
- Wider wheel guard allowing for safe use of wire wheel
- Fitted with eye shields and tool rests, (tool rest fully adjustable)
- M16 x 2mm spindle shafts
- Includes 25mm wide 60 grit grinding wheel + 50 x 915mm Abbott & Ashby linishing attachment
