

**METALMASTER OVD-1**

**Oval Steel Dolly**

**Polished Forming Surfaces for Consistent, Smooth Forming**

## METALMASTER Oval Steel Dolly OVD-1

Top View

Shown With Optional Stand  
& Dollies

### Description

Oval dollies are used to form curves by hammering the metal with a hammer or slapper over the rounded part of the dolly. These dollies are smoothly finished to prevent damaging the material you are forming.

They're the same specialty domed dollies auto body shops and fabricators use to form and shape sheetmetal curves.

### Features

- Oval Dome Dolly Section Size:
- 280 x 160 x 60mm (25 x 60 x 110mm solid Handle)
- Polished cast steel forming surfaces for consistent, smooth forming
- Multiple curved surfaces can form unlimited curves and arcs
