## UNIMIG WELDERS MIG WELDER PROCRAFT 210

### Description

The "PRO-CRAFT SERIES" are light industrial MIG welders designed to deliver great results at an affordable price. They are ideally suited to light fabrication, automotive and rural applications. They are packed with features such as a multi function control board, fan cooling and an industrial strength wire feed system. The 240 has the added features of dual earth inductance and a gear driven wire feed system.

PROCRAFT SERIES  
 ALL WELDERS ARE GAS OR GASLESS

### Features

- Multifunction control and digital display
- Reverse polarity for self shielding wires
- Accommodates 1, 5 & 15kg wire spools
- Electronic pre-set burn back
- Fan cooled copper transformer

### Includes

- Fitted with quality torch and regulator
- 3 year warranty (1yr pcb)

### Specifications

<b>ORDER CODE</b>	W184
<b>MODEL</b>	PRO-CRAFT 210
<b>Type</b>	MIG WELDER
<b>Part Number</b>	KPC210
<b>Voltage (V)</b>	240
<b>Recommended Plug Amperage (amp)</b>	15
<b>Welding Current Range - MIG (amp)</b>	30 - 210
<b>Welding Current Range - STICK (amp)</b>	~
<b>Welding Current Range - TIG (amp)</b>	~
<b>Duty Cycle (% @ amp)</b>	18 @ 210
<b>Wire Spool Size (kg)</b>	5 & 15
<b>Ferrous Wire Size - Range (mm)</b>	0.6 - 0.9
<b>Stainless Steel Wire Size - Range (mm)</b>	0.8 - 0.9
<b>Aluminium Wire Size - Range (mm)</b>	0.9 - 1.0
<b>Recommended Generator (KVA)</b>	~
<b>Dimensions (mm)</b>	920 x 460 x 820
<b>Nett Weight (kg)</b>	78
